### Baths! Baths!

**HOT, tepid and cold water.** Medicated, Vapor and Sulphur Baths, can be had, unsurpassed in quality and convenience by any on the Pacific Coast, at the former Residence of Dr. Wm. H. Goss, Cor. of Douglas and View streets. This elegant Bath House will be open in the future, to both LADIES and GENTLEMEN. Ladies' Entrance is on the South side; Gentlemen will be admitted to the Parlor on the West side.

N. B.—No luxury equal to a bath can be procured for FIFTY CENTS. Sulphur and Vapor Baths cost but 25¢.

Remember, five mourns of all we eat should pass through the pores of the skin. "Wash and be clean!" Cleanliness is next to godliness! If you would save your pockets from medical taxation, and your bodies from poison drug vexation, RATHER EAT MEAT, and drink quaks. **DO**—Ladies, would you have a sweet breath and fair skin? Bath! Hours from 7 A. M. to 9 P. M.

Dr. C. H. Devolfe, from Philadelphia, Lecturer on Physiology, Phrenology, Hygiene, etc., etc., has taken Rooms in connection with the above Baths, over which he will extend a general subscription, as well as attend to an office of his own. The Lecture makes no boast of what he has done or can do, but solicits that share of patronage which the people of an intelligent community may find to their physical and pecuniary interest to bestow after having consulted him.

N. B.—Consultations at the Office there.

Book and Job Printing of every description neatly executed. Terms, cash on delivery of the work.

## Emigration from the British Islands.

It is well sometimes to take a glance beyond the small local circle in which we revolve—to emancipate ourselves from our complete isolation from the rest of the world. We are no losers by giving up a few moments occasionally to observe how others of our race are battling through existence. On the contrary we become a little more cosmopolitan in our ideas, and better fitted to take more enlarged views of the progress of human events.

Few things are more striking than the prolific vigor with which the inhabitants of the British Islands have continued year after year to send forth a continued stream of people to populate the newer continents. Sometimes swollen to repletion, again diminished, but never wholly ceasing, the current of emigration has during the last half century carried from those little spots on the west of Europe over 5,000,000 of human souls. The general report of the Emigration Commissioner for 1861, lately issued, furnishes us with a few facts relative to last year's progress. From its statistics it would appear that those leaving the Kingdom in 1861 were fewer in number than in any year since 1844. One would naturally account for this by the fact of the American civil war having so utterly prostrated every branch of industry, and so completely disorganized society as to shut out most effectually one of the largest and most usual fields of emigration. This is evidently true to some extent from the circumstance of quite a large number having returned home from America. Another cause, however, might be assigned for the decrease last year is the fact that previous years had pretty well drained the country of its surplus population of laborers; giving better wages to those who remained. There was quite an increase in the number going out to British North America, owing, we have no doubt, in some degree to the systematic efforts made by the Canadian government to induce emigration, and to provide employment to those coming out. Australia has been some years the resort of a large number; notwithstanding its great distance from Britain the decrease to that country has been but very small. Among the British Islands, Ireland seems destined, notwithstanding her continued depletion by a constant tide of emigration, to contribute the greatest share to the population of the outer world. The misery she so often experiences from her children abroad, and the adventurous spirit of the race, all conspire to make her most prominent member of the "working class of nations."

The year 1862 will doubtless be a marked one in English emigration. Many things have a tendency to make it so, none of which can be more powerful than the great distress prevailing in all parts of the country. We shall no doubt figure somewhat more prominently in connection with the subject this year. The gold mines of British Columbia have already had their share of attention. The Island of Vancouver will be no longer one of those spots unknown to the British public; and we must do our duty towards making it, at least, not a land of barren promise.

## Trade of the Port--Imports.

Some months back, in reviewing the trade of the port for the first quarter of the current year, we discovered that there had been a falling off in our imports in comparison with the first quarter of 1861, of \$42,845. The irregularity as to valuation in '61, and the past severe winter, had considerable to do with making a decrease in our trade for the first quarter this year. In the second quarter of this year, however, we have made ample amends for the previous quarter's deficiency. The increase in our trade during the half year ending June 30th, '62, over the corresponding half year in '61 is highly gratifying, and is nearly seventy-five per cent. more this year than last. The following statement of imports will demonstrate this very conclusively:

First half year, 1861. First half year, 1862.  
San Francisco, \$646,734 ..... \$1,299,736  
London, 209,837 ..... 168,829  
Portland, 101,238 ..... 43,845  
Port Townsend, 34,985 ..... 115,608  
Honolulu, 18,327 ..... 96,643  
British Columbia, 1,605 ..... 6,550  
New Zealand, ..... 2,605

\$1,062,776 \$1,724,712

Thus the increase in our trade during the first two quarters of this year over the same period in '61 is \$661,936. With San Francisco alone it has nearly doubled; in fact, our imports from that port have been increased \$644,002. What is still more conspicuous is, that with the exception of not quite \$500,000, our whole imports have been drawn from that city. Her merchants are benefitted most by our progress. Nevertheless, during the recent sittings of Congress, they engineered through a bill changing their warehouse system from three months to one year, in direct violation of the Constitution of the United States, which imperatively ordains that no commercial privilege shall be granted to one State that is not granted to all the States; in other words, the Constitution forbids the enactment of commercial regulations that are not uniform throughout the States.

This exceptional legislation was a blow aimed directly at us. The San Francisco Chamber of Commerce pointed out in their memorial to Congress the superior commercial

advantages of our free-port system, and so the Senators of the model republic treat their boasted "divine Constitution" as a dead letter. It is none of our business how they twist, stretch, distort, and forget that boasted production of their revolutionary fathers. If they can submit to see their "first law" treated as a nullity, we certainly should not forget our destiny nor the city with whom we are contending for commercial supremacy. So long as we can buy to more advantage there than elsewhere, so long we will buy. But it must be self-evident to many of our merchants that a very large portion of our San Francisco imports might be brought here direct by combining enterprise with capital. The consumption or distribution of such merchandise here warrants the attempt at importing from abroad directly on a larger scale, rather than submit to pay a commission, profits, expenses, and double freight, through purchasing there. If any one will run through the list of imports, they will perceive our trade with England might be largely increased—purchased at first hands; but it appears from the returns that we give that our English imports are falling off; except the ships now on the way may make it good in the annual return of imports. Portland trade, owing to the migration to the Salmon River mines, has greatly fallen off during the past half of this year; whilst the imports from Port Townsend have increased.

The Sandwich Island trade has increased five hundred per cent. over last year. The only new customer on our books is New Zealand, and the imports from there are small. On the whole the half yearly returns are very promising; so much so indeed that we may almost say that our imports have nearly doubled that of the first half of last year. If the doctrine of that school of political economists be true, who state that the more a nation imports in excess of exports, the richer she becomes, then we are on the high road to prosperity. Yet we cannot but believe that we would be much the richer if our agricultural imports had been raised here.

## NEW ADVERTISEMENTS.

# THE BRITISH COLONIST

Saturday Morning, August 23, 1862.

[From our Extra of Yesterday.]

## Arrival of the Otter!

STICKEEN UNDER A CLOUD.

## MINERS RETURNING!

### INDIAN TROUBLES!

COLONIST OFFICE, 5 p.m.

The steamer Otter has just arrived from Stickeen River *via* the Forts and Nanaimo.

She brings 25 passengers, 20 of whom were taken aboard from canoes at Nanaimo and are returning Stickeen miners.

The Otter brought down a small amount of gold-dust.

The remaining passengers are traders who went from here on the Otter nearly three weeks ago, and have brought back all their goods. The Otter returns as full of freight as she departed.

The steamer Flying Dutchman and the barge W. I. Moore are on the way down with from 50 to 60 passengers.

The schooner Alpha is bound down with 30 passengers. The Emily Harris and other vessels are also bound down with more or less passengers each.

The news is very discouraging. The Otter left the mouth of the river on the 13th inst. for this port, at which time the miners were descending the stream in great numbers.

Flour and many other articles were selling at the mouth of the river at Victoria prices.

The most reliable reports say that there are a few good claims, paying from \$15 to \$25 a day to the hand; but the great majority of miners could obtain only \$1 @ \$1 50 a day digging.

Two drunken Indians have been killed by whites at Stickeen for stealing a canoe. The liquor in the hands of traders was destroyed by whites assisted by friendly Indians. All appeared quiet when the Otter left the mouth; but the whites were keeping a bright look-out.

Two canoes, containing 12 men, were attacked by Indians 30 miles south of Fort Simpson, and all their grub and one of the canoes stolen.

The men were picked up by the schooner Black Hawk and taken to Fort Simpson, where their wants were supplied. They subsequently reached Nanaimo in canoes, and were brought down by the Otter this afternoon.

A canoe containing three men was also attacked by Fort Simpson Indians a day or two previous to the above occurrence, and two of the number killed—the third escaping to Mr. Duncan's Mission. These men were bound for Cariboo *via* Bentinck Arm.

The Otter laid two days at the mouth of the river.

Some of the returning miners pronounce Stickeen a humbug, but all acknowledge that a few claims will pay good wages.

A few miners expressed their determination to winter on the river. Probably one hundred men will remain.

### ADDITIONAL.

Mr. Pryce, formerly of this city, informs us that there are a few claims paying from \$7 to \$8 per day to the hand. Coarse gold has been taken from the North Fork of the Stickeen, and a party of 30 men were preparing to explore the head of the Upper Canon, to find, if possible, the source of the coarse gold. The Indians report that they can travel from Stickeen to Fort George, on the Fraser, in 20 days, and it is said that "Buck" Chequette has gone through.

When the Otter reached Stickeen Captain Moore, of the Dutchman, came alongside and advised the merchants aboard not to take their goods up the river.

A highly intelligent gentleman, Mr. James Battersby, from Napa City, Cal., went up on the Flying Dutchman from this place, on the 11th of June last, and has been to the head of the Upper Canon, to find, if possible, the source of the coarse gold.

The Indians report that they can travel from Stickeen to Fort George, on the Fraser, in 20 days, and it is said that "Buck" Chequette has gone through.

When the Otter reached Stickeen Captain Moore, of the Dutchman, came alongside and advised the merchants aboard not to take their goods up the river.

A highly intelligent gentleman, Mr. James Battersby, from Napa City, Cal., went up on the Flying Dutchman from this place, on the 11th of June last, and has been to the head of the Upper Canon, to find, if possible, the source of the coarse gold.

The Indians report that they can travel from Stickeen to Fort George, on the Fraser, in 20 days, and it is said that "Buck" Chequette has gone through.

One of the men killed by Indians near Fort Simpson was named John Henry, or Henry, who is said to have owned a farm on San Juan Island. The other man was called George, and before he died told the survivor that his mother lived near Cleveland, Ohio.

Schakes, the great chief of the Stickeens, is dead. The Indians say he was poisoned by medicine administered by the captain of a schooner, and Schakes' son says they are bound to have "blood for blood." Trouble is anticipated.

Nuggets of gold weighing \$5 have been found on the North Fork of the Stickeen.

where two men (Italians) are making \$25 a day to the hand with a rocker.

The traders who returned in the Otter were only charged \$5 per ton on the goods for bringing them back.

Montgomery, a trader at the mouth of the Stickeen, only sold five sacks of flour in six weeks.

The Indians at Simpson have been nearly all carried off by small pox. Whole villages have been swept away by the dread disease.

**Seizure of the H. B. Co's Steamer La-bouchere by Russian Indians.**

From Messrs. James G. Poston and J. B. Mallon, who arrived last evening on the Labouchere from Stickeen, we learn that about 150 miles north of Stickeen River, some 300 natives came aboard the Labouchere and took possession of her, surrounding Capt. Swanson and Mr. Compton, the Chief Trader, and by threatening them with spears and knives, compelled them to accede to their terms, which was a difference of a few blankets in making a trade for a sea-otter skin. The crew trained a cannon loaded with grape to fire on the Indians; but the latter held Swanson and Compton before the gun and dared them to fire. They stole the revolvers of the officers and took the interpreter ashore, where the chief advised him to tell Capt. Swanson to heave anchor and leave, which he did. The vessel was in the possession of the savages from 4 o'clock in the afternoon until 10 o'clock in the night. During the whole trying scene Swanson and Compton displayed great coolness. The crew numbered twenty and were afraid to fire lest they should sacrifice their officers, who were held at the very muzzles of the guns. The Labouchere is on her way to Victoria, having left Stickeen on the 14th inst. The Indians who perpetrated the outrage are Russian Indians.

### Memoranda.

We are indebted to the courtesy of the Purser of the Otter for the following memora:

The steamer Otter arrived at Stickeen in 4 days and 6 hours from Victoria, stopping at Port Rupert 2 hours, and at Fort Simpson 16 hours, with thick fog and heavy rain. Found the steamer Labouchere and the sloop Grace Darling lying at anchor there—the former having arrived the night previous. On our way up we passed the Emily Harris bound down, 14 miles to the southward of Fort Simpson. Spoke the sloop Native and the schooner Black Hawk, both bound down, in Milbank Sound; both vessels gave discouraging accounts from Stickeen. Passed the sloop Thornton, bound up, at Tongas Narrows. In Clarence Straits passed the schooner Surprise bound up, and spoke the schooner Alpha bound down, with 30 passengers, all of whom had gone up in her, only five having remained at Stickeen.

Lay off Port Higfield on the 12th and 13th inst. At noon on the 13th the Flying Dutchman came alongside with about 40 passengers. After remaining alongside half an hour she left for Victoria.

The Otter left the same evening at 9:30; arrived at Port Simpson on the 16th, at 4 p.m., having experienced S. E. gales all the way from Stickeen. Learned that the Labouchere had left the day before Bentinck Arm *en route* for Victoria. Left Port Simpson at 12:30 p.m., on the 16th. At 9:30 a.m., on the 17th, passed the Emily Harris about 10 miles north of Fort Rupert. Anchored at Fort Rupert at 10:45; left at 4:30 p.m. On the 29th, spoke the Victoria Packet about 30 miles north of the Seymour Narrows; she reported the Emily Harris ahead. Arrived at Nanaimo at 11:30 a.m., on the 21st, having been detained 16 hours at Nimpkish by thick fog. As the Emily Harris had not arrived at Nanaimo, it is supposed she got lost in the fog and went up one of the inlets near Nimpkish in mistake.

Row on JOHNSON STREET.—Yesterday morning a large crowd of persons, attracted by a row between two Welshmen and two colored men, assembled on Johnson street. Hard words and blows passed between the parties and a revolver was drawn—the Welshmen say by one of the blacks, and one of the latter says it was drawn from a belt which he wore by one of the whites, who flourished it in a threatening manner. The Welshmen procured a warrant for the arrest of the colored men, one of whom surrendered himself into custody of the Police, and the other will probably appear to-day. The difficulty arose about payment for work done at wood chopping by the Welshmen.

**ANOTHER STEAMER AND MORE GIRLS FROM LONDON.**—Shaw, Lindsay & Co., of Austin Friars, London, have a screw steamer, named the Robert Lowe, lying in the London docks, to sail for Vancouver Island in August. She will bring a second invoice of females for our bachelors.

**GRIER'S CLAIM.**—This claim, on Williams Creek, made for one day's work, on the 9th inst., \$11,500.

**THE THEATRE.**—The performances at the Theatre last night were first-rate—better in fact than any we had previously witnessed by the present company. "Robert Macaire" or the "Two Murderers" was the principal piece presented, with Mr. Beatty as Macaire, and the renowned John Woods as Jacques. Both gentlemen and the balance of the company did their several *roles* to perfection, and the fairy dance of Jacques and Louise (Miss Dean) was encored. Ballads and "Mr. and Mrs. White" concluded the evenings entertainment. For this evening no bill was received by us last night, but it is presumed that it will be a good one.

### The Fire Department.

**EDITOR BRITISH COLONIST.**—Noticing a communication over the signature of "Tax Payer," in the *Press* last evening, I beg a small space in your valuable paper for a reply. In answer to his first inquiry, I would inform him that I, as Treasurer of the Victoria Fire Department, have given bonds for the faithful keeping of the funds belonging to the Department, and as yet have not been troubled with sufficient quantity to make it any temptation for me to act dishonestly. In regard to the nationality of the Board of Delegates, I would state that they are nine in number, and that five out of the nine are British subjects. I would further state that our Chief Engineer is a British subject, and that he is not trusted with the funds of the Colony, but will be compelled to purchase the engine on a credit, to be paid for on arrival, or longer time, if it can be obtained. I would ask "Tax Payer" if he is a member of the Department, or if he has ever contributed either money or time for the good of the same? If no, he had better assist to fill up the companies with British subjects, and the foreigners will be only too glad to withdraw.

J. A. McCREA,  
Treasurer Victoria Fire Department.

**The Port Townsend "Tempest in a Teapot."**

PORT TOWNSEND, W. T.,  
August 20, 1862.

**EDITOR BRITISH COLONIST:**—I have seen in the papers several pretended statements of the *facts* relating to the taking possession of the custom house at Port Townsend, August 1st, 1862.

I was present, on board the Shubrick, during the occasion, and know all that transpired, and I have no hesitation in saying that true statement of the facts in the case has not, as yet, been published.

All the statements I have seen have emanated from the personal enemies of Mr. Smith, and do him as well as the commander of the Shubrick, great injustice.

As to the *investigation* made by Governor Pickering at Port Townsend, I have only to say that it was limited to a conversation for about twenty minutes with persons in the streets hostile to Mr. Smith.

His Excellency did not see fit to even converse with those who were known to have been on board the Shubrick, and personally acquainted with all that transpired.

It is due to Mr. Smith, as well as to the commander of the Shubrick that a true statement of the occurrences on the 1st of August and the events that transpired subsequently be published, which will be done at an early day; until which time the judgment of all unbiased lovers of justice should be suspended.

It may be well to state now that no writ of mandate or other legal process could have issued to put Mr. Smith in possession of the custom house, until the session of the District Court on the 20th day of October next.

Yours truly,  
B. F. DENNISON.

**THE REASON WHY.**—A busybody in last night's *Press* asks why no notice was taken by the Colonist of the assault by a night watchman on a resident of this town? We answer, because we were assured that the matter would not come up in court, but would be settled by an ample apology from the person in the wrong—a course which will be taken to-day. The "culprit" is also accused of being an American; he is a British subject, and has been a registered voter in Victoria for two years past. To his credit it is recorded, he is a fireman, and not a "feather-bed" one either.

**GOLD ON NASS RIVER.**—At Fort Simpson, on the way down, the Otter's passengers learned that a party of five men—among whom was one of the Kennedys of this place—were making \$7 a day to the hand. The party came to the Fort and purchased provisions, paying for the same with gold dust.

**COULDNT STAY AWAY.**—Thomas Green, a petty offender, was discharged from prison on Thursday morning, and returning on the same evening, endeavored to force his way past the jail-yard for the alleged purpose of supplying one of his chums with tobacco, and while standing near the door broke one of the side-lights, for which he was arrested and fined 10s.

**ASHORE.**—The bark Sheet Anchor, Seward, went ashore on the 22d day of July, the day on which Mr. Battersby left to come down. Great confidence is expressed by all that coarse gold will be found there, and the country prove a second Cariboo. But below the upper canon the diggings will not pay.

One of the men killed by Indians near Fort Simpson was named John Henry, or Henry, who is said to have owned a farm on San Juan Island. The other man was called George, and before he died told the survivor that his mother lived near Cleveland, Ohio.

Schakes, the great chief of the Stickeens, is dead. The Indians say he was poisoned by medicine administered by the captain of a schooner, and Schakes' son says they are bound to have "blood for blood." Trouble is anticipated.

**CARD.**

SIR:—In order to counteract a report which has

been circulated, that I am not qualified for ad-  
mission to the bar as an Attorney, I append an ex-  
tract from a despatch from *His Grace the Duke of*  
*Newcastle*, to *His Excellency Governor Douglas*,

which was signed by upwards of 100 of the leading  
inhabitants of Victoria, upwards of 20 Writers  
to the Signet, and Solicitors, before the Supreme  
Courts of Scotland, the Members of Parliament  
for my native city, Edinburgh, and forwarded by  
the Lord Advocate, first law officer of the Crown  
for Scotland, and representative of the Scotch Bar  
in the House of Commons:

(Copy No. 85.)

DOWNING STREET, 7th February, 1862.

To GOVERNOR DOUGLAS, C. B.

SIR:—I have received your despatch No. 74 of

the 7th of December, 1861.

Mr. COPLAND HAS QUALIFIED HIMSELF BY

STUDY IN SCOTLAND, FOR PRACTICE AS WRITER

TO THE SIGNET.

\* \* \*

I have, &c.,

(Signed) — NEWCASTLE.

I have further to add that upon my arrival here in December, 1859, I applied for admission to the Bar, producing at the same time my certificate of 5 years clerkship to James Duncan, Esq., Writer to the Signet, and also *Certificates of Examination by the Professor of Scotch Law in the University of Edinburgh*. In January, 1859, I sent my first Petition to Her Majesty, through this Government, (which document I believe never reached England, as I never heard of it afterwards.) In January, 1861, I forwarded a third Petition, in duplicate, that is, one copy through this Government, and the other through the influential parties above mentioned. The despatch of the 7th February has now been in these Government offices for upwards of three months, and as my legal rights have not yet been accorded to me, it will shortly be my duty to make a fourth appeal to my Queen.

au7 JOHN COPLAND.

CRAMP, AGUE, FEVER, RHEUMA-  
TISM, CONSUMPTION, ASTHMA,  
COUGH, &c.

**ALL PAIN, VOMITING AND DISTRESS**

ceases in a few minutes after taking a dose of  
that wonderful SEDATIVE ASPIDINE and ANTIP-  
AROMATIC remedy discovered by Dr. J. Collis Browne,  
M. R. C. S. Eng., M. R. C. P. Scot., the receipts  
which were communicated to Dr. J. Davy, of the Great  
Brew street, Bloomsbury-square, London (Pharmaceutical  
Chemist). The medical testimony of civil, hos-  
pital, military and naval practitioners pronounces it  
INVALUABLE. It relieves pain of any kind, soothes  
the restlessness of fever, and imparts the most re-  
freshing sleep, without producing or leaving any  
of the effects of opium. It is the most speedy cure  
ever known, as thousands will testify whose lives have  
been saved by it.

For Influenza it is the very best medicine in the  
world.

Be not deceived, remember that it is

**Dr. Wistar's Balsam of Wild Cherry**  
that performs the most wonderful cures, and it is the  
remedy that will afford you immediate relief.

—Sold by all Druggists.

**HOSTETTER, SMITH & DEAN**, Agents, San Francisco  
Sold by LANGLEY BROS., Victoria.  
ju5 6m

*Extracts from the General Board of Health,  
London, as to its efficacy in Cholera.*

1st Stage of Preliminary.—In this stage the remedy  
causes a slight griping, yet when it is over, the patient  
is perfectly relieved.

2nd Stage, or that of Vomiting and Purging.—In  
this stage it really possesses great power, more  
than any other we are acquainted with, of two or three  
doses being sufficient.

3rd Stage, or Collapse.—In all cases restoring  
the pulse. So strongly are we convinced of the immense  
value of this remedy, that we cannot too forcibly  
urge the use of it in all cases.

2nd Stage.—M. R. C. S. Eng., the Medical Inspector of  
Hospitals, Bloomsbury-square, London (Pharmaceutical  
Chemist). The medical testimony of civil, hos-  
pital, military and naval practitioners pronounces it  
INVALUABLE. It relieves pain of any kind, soothes
